## Glass Cleaner Concentrate / H-114-GS

*VOC compliant*

**Features:** Designed specifically to cut through the haze deposited on interior glass by chemicals, tobacco smoke, etc. Won't damage after market window tint films. Contains no ammonia. 10:1 concentrate delivers excellent economy.

**Benefits:** Saves on labor as *Glass Cleaner Concentrate* normally cleans in one pass when competitive products may take several attempts before cutting vinyl emissions, tobacco haze and road grime.

**Uses:** All glass and light cleaning on hard trim, vinyl and non-fabric interior components.

**Directions:** See per instructions on container. Use of the *ValuGard Dispensing system* is recommended for maximum performance and economy.

**Tips:** For spotless, lint free glass use two VG-ST *surgical towels*. Saves time and delivers terrific results!

**Sizes:** VG-114GS = 4 gallons per case  
VG-115S = 5 gallon pail  
VG-115DS = 55 gallon drum
