

PRODUCT DATA SHEET

Clear Coat Polish / K-119

VOC compliant

Features: Single step polish that removes light oxidation and swirl marks and leaves behind a high gloss wax finish. A true cleaner, polish and wax.

Benefits: *Clear Coat Polish* is a fast, labor saving product that, when properly used, does not require any follow up buffing or waxing. Cleans, polishes, protects. Excellent for dark colors.

Uses: Quick one step polish and wax on all painted surfaces and swirl mark remover.

Directions: Use with a high-speed buffer at 1,200 rpm to 1,750 rpm. Best results with a VG-810G or VG-528G foam pad. May also be applied with the Dual Action, (D.A.), polisher or hand applied.

Tips: D.A. Polishers allow for more detailed polishing with less handwork than orbital polishers. Order VG-115 Dual Action Polisher.

Sizes: VG-K119 = 12 pints per case
VG-K119G = 4 gallons per case
