

PRODUCT DATA SHEET

Odor Terminator / S-128

VOC compliant

Features: *Odor Terminator* is not a perfume or cover up scent. Many such products offend the vehicle owner or buyer as much as the original mal-odor! *Odor Terminator* is an unscented formula that chemically alters the proteins that odor causing microbes feed on.

Benefits: Non-toxic, non-allergenic, fast acting without offensive perfume smell. Simple and inexpensive to use, *Odor Terminator* will not damage interior materials or components.

Uses: Removal of smoke, pet odors, virtually any organically caused mal-odor in carpet, seats, headliners, upholstery and heating and air conditioning ducts.

Directions: General Odors: Spray a fine mist over the entire vehicle interior beginning with the headliner and finishing on the carpeting. *Odor Terminator* is a contact product and must be sprayed on the source of the odor. Be sure to spray under the seats.

- Heating/ Air Conditioning Ducts: Spray *Odor Terminator* into all vents. Turn on the fan blower and spray into all intakes.
- Extractor Units: Add 4 ounces *Odor terminator* to each gallon of extractor solution.

Tips: Clean affected area before application of *Odor Terminator*. Clean interior glass after use to prevent spotting.

Sizes: VG-S128 = 12/22 oz. bottles per case
VG-S128G = 4 gallons per case
VG-S128D = 55 gallon drums (**SPECIAL ORDER**)
